

Yasir Hameed

Email: ysr.hameed.yh@gmail.com

Website: ysrweb.online | **GitHub:** github.com/ysr-hameed | **Location:** India

Role: Full Stack Web Developer | **Experience:** 5+ years

Profile

Self-taught full stack developer with 5+ years of experience building production-ready platforms end-to-end — from UI to backend, APIs to databases, and deployment to scaling. Known for shipping real projects like StartMate and YouTube Automation apps with a community-first approach and zero budget hustle.

Education

- **Bachelor of Arts (B.A.)** – T.N.P.G., Ambedkar Nagar
- **12th (Arts – 63%)** – Qaumi Inter College
- **10th (67%)** – Qaumi Inter College

Skills

- **Frontend:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, jQuery, Responsive UI, etc.
- **Frameworks:** Flask, Express.js, Next.js.
- **Backend:** Python, PHP, Node.js (basics), REST API development, session & JWT auth, etc.
- **Databases:** MySQL, PostgreSQL, MongoDB, Firebase Firestore (basic), etc.
- **Cloud & Hosting:** AWS (S3, EC2 basics), Firebase Hosting, Vercel, Netlify, Railway, etc.
- **Deployment:** Custom domain setup, SSL configuration, Linux CLI usage, version control with Git & GitHub, etc.
- **Tools & Technologies:** Git, GitHub, Postman, VS Code, Chrome DevTools, etc.
- **Soft Skills:** Problem-solving, teamwork, quick learning, adaptability, communication, self-motivation, etc.

Projects

- **StartMate:** A zero-budget collaboration platform for students and freelancers. Features include secure login (OTP/email), project task tracking, contributor systems, code protection, and scalable deployment.
- **YouTube Quote Generator:** An AI-based app that creates short motivational quote videos with dynamic overlays, trending audio, and auto-upload to YouTube using APIs.
- **Secure Code Testing System:** A tool to share testable source code safely with watermarking, activity logs, contributor rights protection, and full permission control.
- **Realtime Task Tracker:** Task management app using Firebase Firestore, complete with subtasks, live updates, edit/delete/done features, and user-specific project views.

Why Me?

I'm a builder. I don't just write code — I design systems, connect tools, secure workflows, and deploy real platforms with zero budget and 100% hustle. If it can be built, I'll figure it out and ship it. I bring complete ownership, long-term thinking, and startup-style speed to every project.
